

D. READING

Nikola Tesla

Nikola Tesla was born on July 10, 1856, in Smiljan, which is now part of Croatia. He passed away on January 7, 1943, in New York City, USA. Nikola Tesla was a brilliant inventor and engineer. He was very intelligent and had a great imagination. From a young age, he showed a strong interest in science and electricity. One of his most important contributions was the development of the alternating current (AC) system. This system is used today to deliver electricity to homes and cities around the world. Tesla also worked with electricity in many creative ways. He invented the Tesla coil, a device that produces high-voltage electricity.

His ideas helped improve radio technology, wireless communication, and even early robotics. At one point, Tesla worked with Thomas Edison, but they had different ideas about electricity. Tesla believed that alternating current was better, and in the end, his system became more widely used. Nikola Tesla was a visionary thinker. Although he did not become very rich, his inventions and ideas changed the world. Today, he is remembered as one of the greatest inventors in history. His work continues to influence modern technology, especially in electricity and engineering.

Read the text again and choose the right option for each statement.

- Nikola Tesla was born in the United States.*
 - True
 - False**
 - Not mentioned
 - Both true and false
- Tesla developed the alternating current (AC) system.*
 - True**
 - False
 - Not mentioned
 - Both true and false
- The Tesla coil is used to produce low-voltage electricity.*
 - True
 - False**
 - Not mentioned
 - Both true and false
- Tesla and Thomas Edison had the same ideas about electricity.*
 - True
 - False**
 - Not mentioned
 - Both true and false
- Nikola Tesla became very rich because of his inventions.*
 - True
 - False**
 - Not mentioned
 - Both true and false
- Tesla's ideas helped develop modern technology.*
 - True**
 - False
 - Not mentioned
 - Both true and false

E. LISTENING

Open the link, and listen: What's the invention?

<https://english-practice.net/practice-listening-english-exercises-for-a2-inventions/>

What are the people talking about? Number the pictures from 1 to 6. (There are two extra pictures.)

INVENTIONS

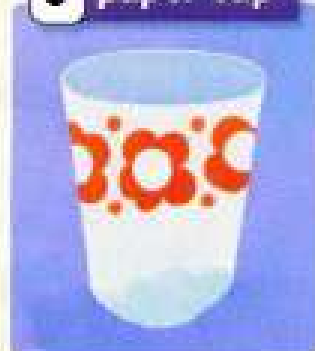

1 badminton

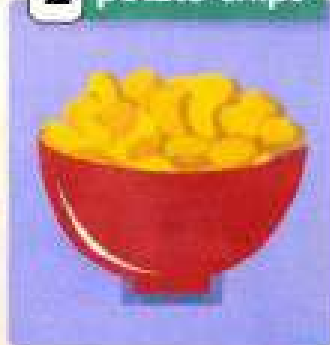

6 calculator

5 paper cup

2 potato chips

THROUGH THE AGES

4 ice cream cone

3 elevator

escalator

telephone
